6. Planning for final seminar
7. Reporting
8. Future cooperation

Practical Information

Aalto University is easy to reach by subway (Metro) from downtown Helsinki. It takes about 20 minutes from downtown, and about 1 hour from the airport to reach the University using public transportation.

From Airport, the train "P" and "I" take you to the Helsinki main station. From Helsinki main station you can follow signs to the subway denoted by a big orange sign with a letter M.

The subway trains leave every few minutes and the ride lasts some 10 minutes between Helsinki main station and Aalto University station. Please confirm the direction as "**Kivenlahti**" or "**Tapiola**". You should get off at "**Aalto University**". At the platform, it doesn't matter very much which exit you use. However, exit "B" will take you a bit quicker to the meeting venue.

If you prefer to stay near to university, hotel Radisson Blu Espoo is the closest to the meeting venue and can be reached by foot. Many other convenient options exist in downtown Helsinki. From there, you can easily take a metro to the university.

The meetings and trainings are held in **Room 4126** at Maarintie 8, the building is called "TUAS-talo". This name can be used on google maps to find the building. On [The University Map](#) it is building 37.
